9 pcs. in a bag

### Product care

d line products are produced in the highest quality marine grade AISI 316 stainless steel. To sustain the unique d line finish please follow the below instructions:

- Wash down the surfaces using soapy water or mild detergent
  - Always thoroughly rinse off with clean water
  - To complete the cleaning procedure dry/polish the surface with a soft dry cloth
- Please do not use scouring powder, steel wool, chloride based detergents or other aggressive cleaning products as these may damage the surface.
- If spots or corrosion appear on the surface it is not due to the stainless steel quality, but to impurities in the environment, aggressive conditions or improper or insufficient cleaning.
